

VET Workforce Research

Maintaining industry currency through strengthened industry relationships

The initial focus of the VET Workforce Research project was to uncover workforce challenges and opportunities across the VET sector to support industry-led solutions and pathways aimed at strengthening workforce pipelines.

We're now exploring the barriers preventing VET teachers, trainers and assessors from maintaining industry currency, leading to risks of skill and knowledge gaps.

Benefits of being involved

Your input is important and will:

- identify barriers common to all VET teachers, trainers and assessors
- identify barriers specific to certain sectors
- develop tools and resources to support the VET workforce
- inform the design of a pilot or model to be tested.

How to get involved

In the next stage of this project, we want to connect with key industry stakeholders through online and in-person workshops.
